

111th Congress
1st Session

H.R. 33

The Better Homes Bill

TO

Make homes that are better for the planet.

IN

Congressional Elementary School

July 4, 2009

Melissa

introduced the following bill;

A Bill

To

Make homes that are better for the planet.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

All homes should be built to use less electricity.

This bill is a good bill because using less electricity
is better for the Earth.
